Colour Options available in various colour schemes

Has Accessibility Options Yes

Wheelchair Accessible Yes

OVERVIEW

The Accessible Tippy Canoe is a wheelchair-accessible playground component designed for multi-ability, multi-age and multi-user play. Mounted on heavy-duty springs for a fun bouncing and rocking experience, it attaches directly to a playground deck and easily integrates with modular structures. Users with wheelchairs and other mobility aids can roll on independently and enjoy the motion alongside friends. A maze at the front of the canoe serves as a fun finger puzzle, adding play value.
