Motor Skills	fine motor skills
Sensory	tactile
Cognitive	counting; literacy
Materials	3/4" thick compression-molded UV-stabilized HDPE; stainless steel hardware
Colour Options	available in various colour schemes

OVERVIEW

The Alphabet/Number Maze playground panel delivers double the learning and double the fun. One side features an alphabet maze, while the other is a number maze. This panel encourages letter and number recognition through hands-on exploration. As kids trace the paths with their fingers, they build fine motor skills and early literacy and numeracy in a tactile, interactive way.
