<b>Colour Options</b>	available in various colour schemes

## OVERVIEW

The Bubble Panel playground component adds visual interest and imaginative fun to any play structure. Its clear, domed window invites children to peek through, transforming it into a peephole, a porthole or even a window into another world. Kids can spy on friends, pretend they're navigating a ship or simply enjoy the unique perspective it offers. The transparent design enhances visibility for supervision while encouraging creative play and social interaction.
