SPECIFICATIONS

Model Number	Manta Ray
Age Range	18mo-12yr
Type of Play	sensory
Accessibility	accessible with appropriate surfacing; ground level activity
Sensory	auditory
Installation Options	in-ground; surface-mount

OVERVIEW

The Manta Ray is an outdoor music instrument with a magical sound. It has an elegant anodized aluminum metallophone with a powder-coated steel frame. The individual chime tubes are suspended by a nylon-coated stainless steel cable.

The chimes on the two sides are repeated and it has four mallets, making it a great instrument for two people to play together.
