

Double Tier Illini Shelter

SPECIFICATIONS

Model Number	Illini
Design Options	Available in various sizes and styles.

OVERVIEW

The Double Tier Illini Shelter provides protection from the elements in any outdoor environment. The stylish design can easily be incorporated into any project. Available in a wide variety of colour combinations.

Pre-fabricated, powder-coated steel frame has four sides and is available in your choice of tapered C-channel or tubular steel. Extruded aluminum gutters and channels are sent on standard units. Structural, interlocking roof panels offer superior strength and fewer supports.
