<b>Sensory</b>	auditory; tactile
<b>Social/Emotional</b>	imaginative
<b>Materials</b>	80 durometer mallets; coated fiberglass notes
<b>Install Options</b>	in-ground; portable; surface-mount

## OVERVIEW

The Imbarimba outdoor instrument combines elements of two classic African instruments, the marimba (a resonated xylophone) and the kalimba (a thumb piano). The notes are arranged for easy access. The coated fiberglass bars are entirely weatherproof, withstand hard use and deliver the sound of a wooden instrument without the maintenance. Stainless steel resonators project rich tones with strength and clarity.
