Type of Play	physical
Features	14" rise to the right; balancing activity
Motor Skills	balance; foot-eye coordination
Materials	industrial-grade polyurethane; powder-coated steel; stainless steel hardware
Colour Options	available in various colour schemes

OVERVIEW

The Little Loop balancing component links two platforms at different heights. Kids can play “outside the fences” as they exit the structure and balance along the curving pods before returning to the platform. A post handle provides extra support along the way.
