

Nunatak

OVERVIEW

Named after an arctic geographic feature where the summit of a mountain protrudes from a surrounding glacier, the Nunatak playground climber promotes vertical climbing and scaling.

SPECIFICATIONS

Age Range	5-12yr
Design Options	available with various themes/images; connectable in multiples for added height and play value
Heights Available	74" max
Type of Play	physical
Features	climbing and clambering
Motor Skills	agility; coordination; lower body strength; motor planning
Materials	3/4" thick compression-molded UV-stabilized HDPE; powder-coated steel; stainless steel hardware
Colour Options	available in various colour schemes
