

Moose Climb

OVERVIEW

The Moose Climb playground climber is positioned perpendicular to the platform, encouraging a lateral, side-entry approach as children ascend using the integrated hand and footholds. A routed image of a moose adds a fun, nature-themed accent. Pairs perfectly with our nature-inspired Rootz Series.

SPECIFICATIONS

Age Range	5-12yr
Design Options	available with crawl-through hole; connectable in multiples for added height and play value
Heights Available	74" max
Type of Play	climbing and clambering
