

Bear Climb

OVERVIEW

The Bear Climb playground climber is positioned perpendicular to the platform, encouraging a lateral, side-entry approach as children climb using the built-in hand and footholds. A routed image of a bear reaching for honey in a tree adds a playful, nature-themed element. Works well with our nature-inspired Rootz Series.

SPECIFICATIONS

Age Range	5-12yr
Design Options	connectable in multiples for added height and play value
Heights Available	74" max; requires multiples for decks higher than 46"
Type of Play	physical
Motor Skills	agility; coordination; lower body strength; motor planning
Materials	3/4" thick compression-molded UV-stabilized HDPE; composite wood material with SolidCore technology; powder-coated steel; stainless steel hardware
Colour Options	available in various colour schemes
