

Nunatak with Crawl-Thru

OVERVIEW

The Nunatak with Crawl-Thru playground climber encourages vertical climbing and scaling with built-in hand and footholds for added support. Positioned perpendicular to the platform, it requires a more challenging lateral entry. Its crawl-thru hole adds visual interest and opens up new play opportunities, allowing kids to crawl, peek through, and explore as they navigate the structure.

SPECIFICATIONS

Age Range	5-12yr
Design Options	available with various themes/images; connectable in multiples for added height and play value
Heights Available	74" max; requires multiples for decks higher than 46"
Type of Play	physical
Motor Skills	agility; coordination; lower body strength; motor planning
Materials	3/4" thick compression-molded UV-stabilized HDPE; powder-coated steel; stainless steel hardware
Colour Options	available in various colour schemes
