

Q-Bo Duo

SPECIFICATIONS

Model Number	QB-2-001PW
Age Range	18mo-12yr
Design Options	available with stainless steel slides for superior durability
Colour Options	available in various colour schemes

OVERVIEW

Deliver twice the fun plus the same contemporary flair with Q-Bo Duo! Linked by a suspended net tunnel for added adventure, this impressive double configuration encourages exploration inside and out. Myriad climbing routes lead to a fun slide exit while a wide diversity of play panels round out the experience. Interesting angles and open-ended play opportunities make Q-Bo Duo a standout addition to any playground.

With its unique cuboctahedron shape, the **Q-Bo Series** delivers sculptural form and big play value, all in a compact footprint. Q-Bo invites dynamic play as kids find ways to explore all the angles, both inside and out. Play panels throughout—including tactile activities, mazes, portholes, windows and more—spark curiosity and interaction. Visually striking, Q-bo combines architectural flair with open-ended fun.
