OVERVIEW

Deliver twice the fun and the same contemporary flair with Q-Bo Duo. Featuring two pods linked by a suspended net tunnel, this double configuration encourages exploration inside and out. Multiple climbing routes lead to a fun slide exit, while interactive play panels—including tactile activities, mazes, portholes and windows—spark curiosity along the way. With its bold angles and sculptural design, Q-Bo Duo delivers dynamic, open-ended play and big play value in a compact footprint.
