Weight	7.7m x 8.6m (25' x 28')
Age Range	18mo-12yr
Design Options	available with stainless steel slides for superior durability
Colour Options	available in various colour schemes

## OVERVIEW

The ultimate Q-Bo experience! The Q-Bo Trio rises to new heights with three interconnected pods for non-stop adventure. Kids can explore, clamber and slide while discovering multiple activities both inside and out. Play panels throughout—including tactile activities, mazes, portholes, windows and more—spark curiosity and interaction. With its striking architectural appeal, Q-Bo Trio delivers a dynamic, open-ended play experience that's as bold as it is fun.

With its unique cuboctahedron shape, the **Q-Bo Series** delivers sculptural form plus big play value, all in a compact footprint. Q-Bo invites dynamic play as kids find ways to explore all the angles, both inside and out. Visually striking, Q-bo combines architectural flair with open-ended fun.
