

# We Rock E-Z

## OVERVIEW

The We Rock E-Z inclusive playground rocker features four supportive E-Z seats enabling all children to rock with ease. With its gentle recline, rubber belting and side rails for gripping, the We Rock E-Z gives children with limited body control the support they need so they can sit back and enjoy the rocking motion. This multi-user rocker is designed for easy wheelchair transfer and comes with an optional harness. The square centre area provides additional space for seating. Designed in consultation with pediatric occupational therapists for best practices.

## SPECIFICATIONS
