

Seeing children play and connect with each other reminds us just how important playgrounds are. As we celebrate our centennial, our goal as ever is to fabricate high quality products designed to inspire outdoor fun. It's all about helping Canada's communities play strong.

Let the party begin! 2017 is a year of celebration for Blue Imp as we mark our centennial... 100 years of success! Knowing this is a landmark very few companies reach fills me with deep pride.

Together with my son, Stuart, I would like to thank the many people who continue to be a part of our success: our customers, suppliers, distributors, sales reps and of course our employees, some of whom have been with the company for 30 years.

We owe a huge debt of gratitude to my grandfather, Simon F. Scott, who set the Blue Imp story in motion when he established his blacksmith shop in 1917. An inventor and entrepreneur, he not only built some of the machinery still used in our plant, but paved the way for ingenuity and growth. Joining the family firm in 1945, my father helped establish and build the Blue Imp brand. Both would be immensely proud to discover that the fourth generation of the Scott family is now at the helm of this thriving enterprise.

We invite you to browse the many exciting ideas for parks and play spaces presented in our 2017 Product Catalogue. Be sure to travel 'back to the future' with our Centennial Series featuring iconic Blue Imp pieces, re-imagined and re-designed for the 21st century.

We look forward to working with you on your next playground or park project. Our Canada-wide team of experienced playground consultants is ready to help you every step of the way.

Sincerely,

Don Scott

### **BLUE IMP FACTS**

- Blue Imp is a fourth generation family-owned, wholly Canadian company
- The Blue Imp story began when Simon F. Scott opened a small blacksmith shop in 1917
- Simon Scott built much of the machinery used to fabricate early playground equipment
- Swings, slides and teeter-totters were once made of tubing from decommissioned steam locomotives—recycling before its time!
- The Blue Imp plant was destroyed by fire in 1957 and was promptly rebuilt on a larger scale
- Today's facility comprises more than 60,000 sq. ft. with state-of-the art technology
- Blue Imp transforms more than 1.5 million lbs of steel into playground fun annually

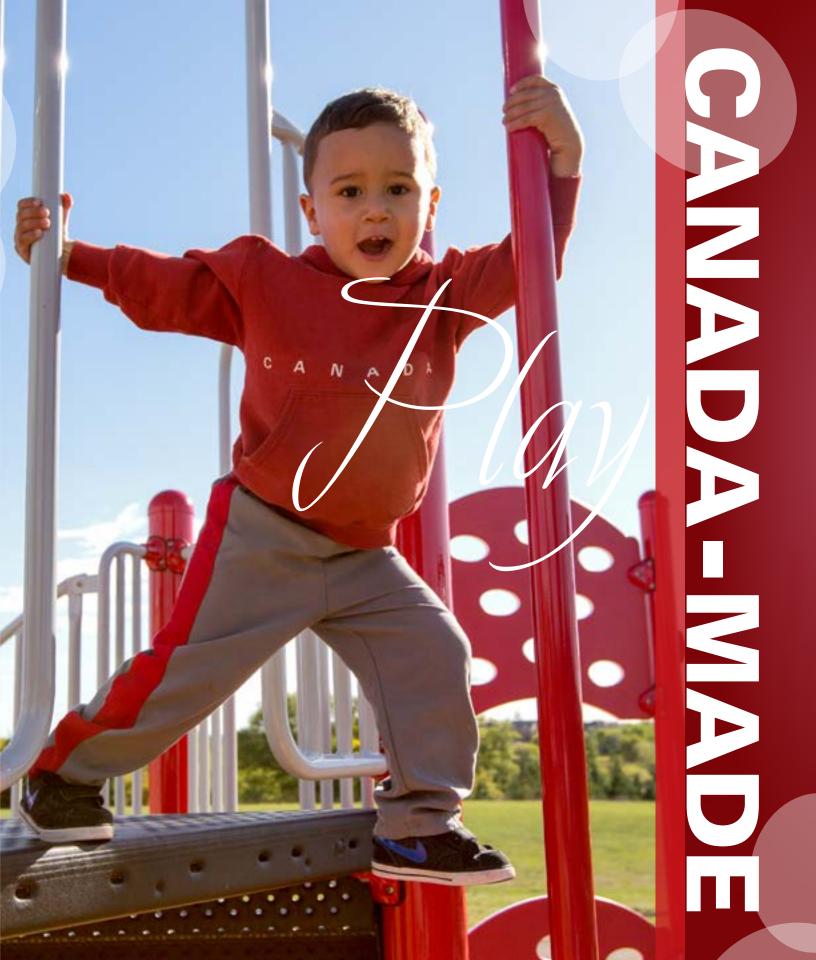

Proudly Made-in-Canada since 1917, we fabricate a vast array of playground and park products at our high-tech facility in Medicine Hat, Alberta.

What Canada makes, makes Canada!

As Canada's longest-standing playground manufacturer, we know a thing or two about crafting products with the durability you need for harsh climates and energetic play. Canadians continue to count on Blue Imp for high quality and safety with a focus on fun.

Playing and growing together is what the playground is all about. It's a real-life social networking site where children of all ages and abilities learn to include others, lend a hand, take turns, co-operate and create memories that will last a lifetime.

By developing physical literacy, inspiring imaginative play and fostering social interaction, well-designed playgrounds help build stronger muscles, healthier minds and closer communities.

classic favourites.... re-imagined for today!

Flephant Climb

Whether clambering up the leg walls, exploring the giant net belly or swooshing down the trunk, kids of all ages will discover gigantic fun.

CN-479

Also available with plastic or tube slide.

# 

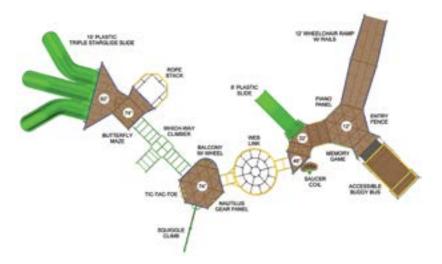

### **Victoria Park**

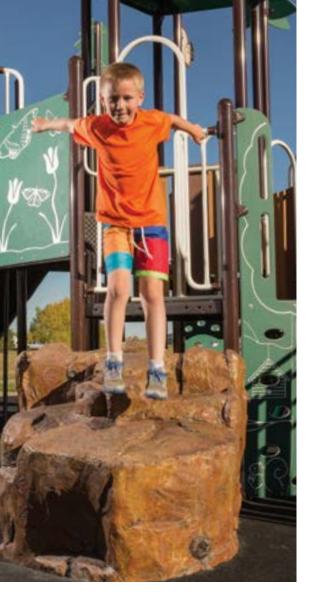

Diverse ages and abilities will discover big fun on this multi-faceted structure. Wheelchair ramp leads to the Bouncing Buddy Bus for imaginary play with friends while net-based climbers provide challenges for older ages.

C17-01

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 21m x 13.2m (69' x 43')

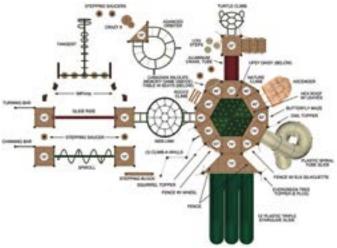

### **Stettler Kin Park**

Up the boulder or log steps, into the treehouse, down the slides and around the overhead circuit, this nature-inspired community park is loaded with adventurous activities. Ideal design for grounders fun.

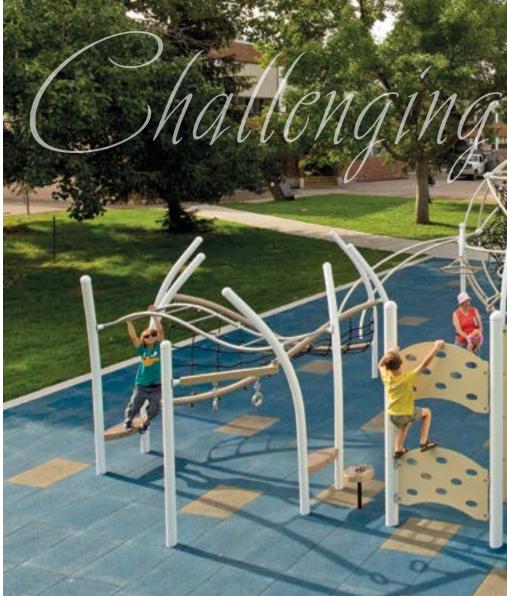

C17-02

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 15.4m x 18.3m (51' x 60')

17

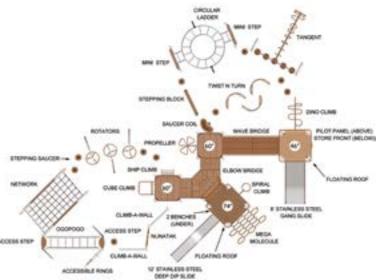

### Westminster **Elementary School**

Contemporary look and challenging action make this an ideal structure for upper elementary. Transparent design enhances visibility while heavy-duty construction ensures safety and durability.

C15-03

Recommended Ages: 5 – 12 Format Shown: MegaPlay

Area Required: 21.2m x 14.3m (70' x 47') Freestanding Asteroid net not included.

19

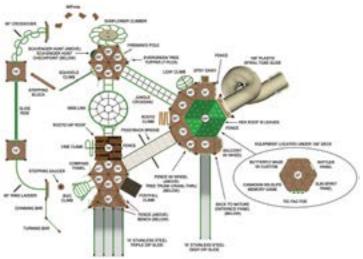

### **Bragg Creek**

From the lofty double-decker treehouse and amazing slides to the unique triangular layout connected by bridges and nets, this nature-inspired design is action-packed. A true paradise for grounders!

C17-03

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 18.8m x 16.1m (62' x 53')

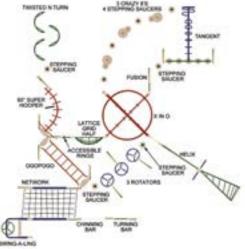

### Layritz

Featuring abstract shapes and curvy lines, this deckless design in our popular uPlay format creates unconventional and unlimited opportunities for play. Ideal for motivating and challenging older kids.

C12-07

Recommended Ages: 5 – 12

Format Shown: uPlay

Area Required: 17.5m x 16.0m (58' x 52') Freestanding items not included.

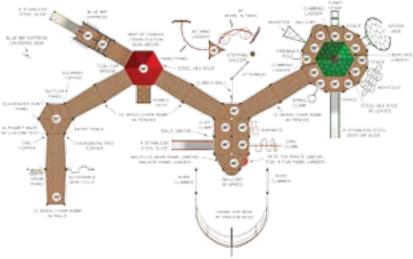

### **Everybody Plays**

It's a Viking ship, it's a locomotive and train station, it's a treehouse all in one! This multi-themed playground is wheelchair playable right to the top and provides endless opportunities for inclusive and imaginative play.

C14-07

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 22.7m x 16.6m (75' x 55')

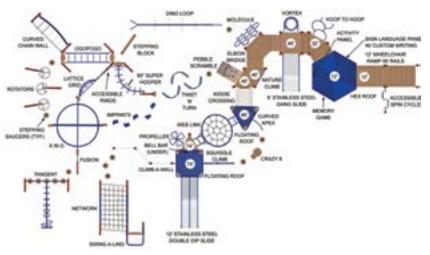

## St. Isabella Duncan Elementary School

All ages and abilities will have big fun on this spacious school playground. Features plenty of accessible play as well as exciting slides and challenging brachiating and climbing activities. Transparent design ensures easy supervision.

C16-12

Recommended Ages: 5 – 12 Format Shown: MegaPlay

Area Required: 24.5m x 17.7m (81' x 58') Freestanding Beehive not included.

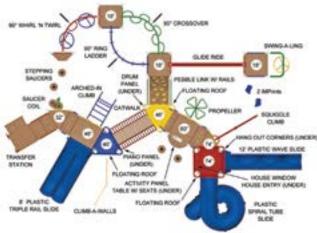

### **Tower Park**

A vibrant variety of sliding thrills combine with climbing and upper body action as well as sensory play to make this community playground a hit for all ages.

C16-17

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 13.7m x 15.5m (45' x 51')

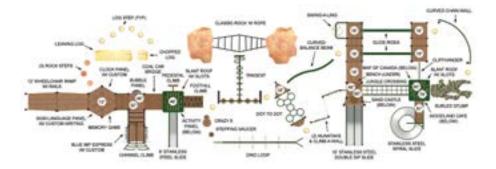

### **Edgemont Community Park**

This unique design combines a train theme with natural elements from our Rootz series to create a multi-faceted play experience. Wheelchair ramp provides easy access to the fun while adventurous climbers and overheads round out the play.

C16-07

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 11.8m x 28.3m (39' x 93')

Not exactly as shown in photo.

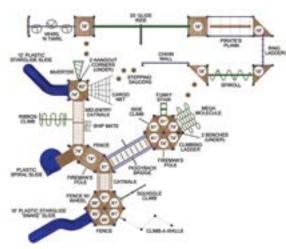

### **Trafalgar**

Challenging climbers lead to high platforms and exciting slides on this structure geared for upper elementary students. Extensive agility circuit features 20' glide ride. Stepping saucers link the play for non-stop fun.

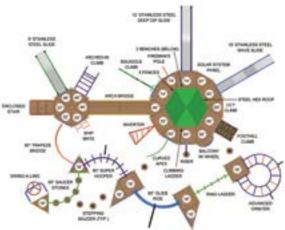

C17-04

Recommended Ages: 5 – 12 Format Shown: MegaPlay

Area Required: 20.2m x 18.6m (67' x 61') Freestanding net structure not included.

### St. Patrick's School

With a twisty upper body circuit, challenging climbers and awesome slides, this spacious design features loads of fun for mid to upper elementary students.

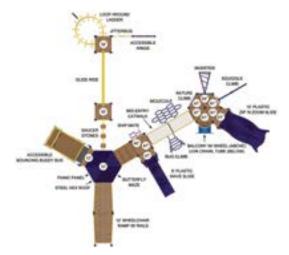

C17-05

Recommended Ages: 5-12 Format Shown: ImpPlay

Area Required: 16.3m x 14.7m (54' x 49')

### **Lac du Bonnet Lions**

This wheelchair accessible structure provides fun for a variety of ages and abilities making it an ideal design for a community park. Colour scheme and themed components give a nod to the Lions Club.

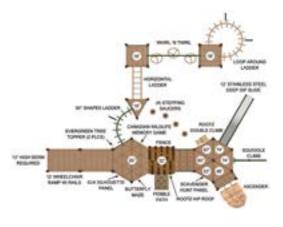

C17-06

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 17.3 x 15.3 (57' x 51')

C17-07

Recommended Ages: 5 – 12

Format Shown: MegaPlay

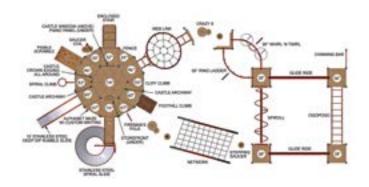

Area Required: 15.2m x 15.6m (50' x 52')

# **Anne McClymont Elementary**

This well-rounded school playground provides easy access for all abilities along with challenging climbers and overheads. Boulder & wood-look slats add a woodsy touch.

#### **Medieval Castle**

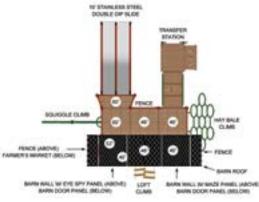

Calling all kings and queens, knights in shining armour and court jesters! This appealing castle design adds an imaginative dimension to the play. Extensive overhead circuit makes this design ideal for upper elementary.

C14-08

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 19.8m x 12.2m (65' x 40')

C17-08

Recommended Ages: 2 – 12 Format Shown: ImpPlay

Area Required: 10.0m x 9.8m (33' x 32')

Not exactly as shown in photo.

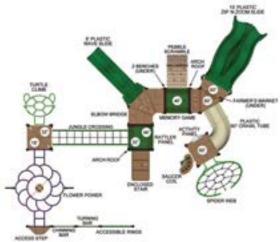

Freestanding Super Chicken not included.

## **Farmyard Fun**

Grow imaginative play with this barn-themed structure. Little farmers can ascend into the hayloft via the climber of their choice before making a quick exit on the Deep Dip Slide.

#### **Indus Recreation Centre**

This compact community park design features a wide variety of activities to keep children of diverse skill levels active and engaged. Net-based Jungle Crossing and Spider Web add a dynamic element.

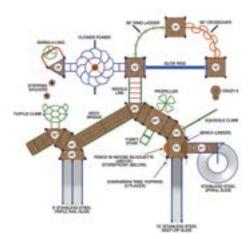

C17-09

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 14.1m x 12.5m (47' x 41')

C17-10

Recommended Ages: 5 - 12Format Shown: ImpPlay

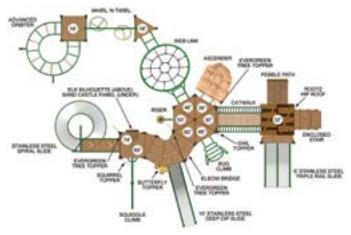

Area Required: 14.2m x 14m (47' x 46') Freestanding items not included.

#### **Sunset Beach**

This vibrant design delivers an exciting mix of upper body fun, climbing challenges and sliding thrills. Vandal-resistant, all-steel construction ensures maximum durability in remote settings.

#### **Elkwater Adventure**

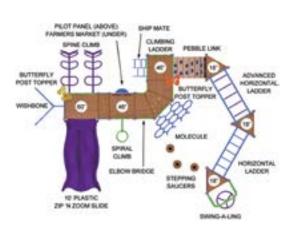

This woodsy design provides fun for diverse ages and skill levels. Boulder, Bug Climb and other nature-based components complement the campground setting.

C16-05

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 15.5m x 12.2m (51' x 40')

C17-11

Recommended Ages: 5 – 12 Format Shown: ImpPlay

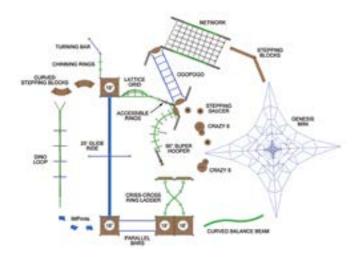

Area Required: 12.4 x 10.0m (41' x 33')

# **Big Knife Provincial Park**

Combining the favourite climbing, sliding and upper body activities, this striking design delivers big play value in a compact package. Butterflies top off the fun!

## **Samuel Burland School**

Crafted to appeal to middle school students, this design features challenging upper body events along with dynamic net-based components.

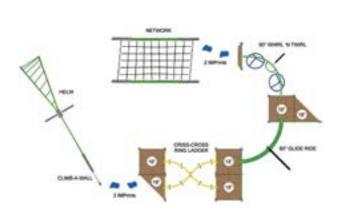

C16-08

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 18.6m x 15.1m (61' x 50')

Freestanding Astro not included.

C17-12

Recommended Ages: 5 – 12 Format Shown: ImpPlay

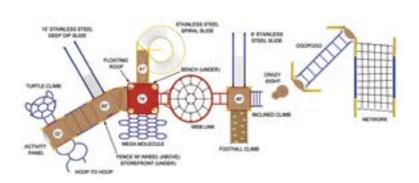

Area Required: 15.1m x 10.1m (50' x 33')

#### **Erin's Circuit**

From the Helix through to the Network, this agility circuit provides challenging climbing, clambering and upper body activities for older children.

## **Barbara Mitchell Family Resource Centre**

Accommodating diverse ages was the goal for this Family Resource Centre. Slides of varying heights and styles provide the motion kids love while net-based components create challenging climbing action.

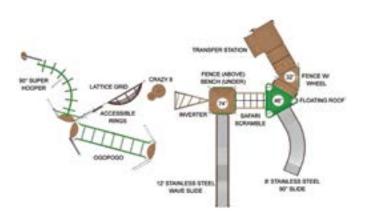

C16-14

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 18.9m x 10.1m (62' x 33') Freestanding Dreamcatcher not included.

B

C16-09

Recommended Ages: 5 – 12

Format Shown: ImpPlay

Area Required: 10.9m x 14.2m (36' x 47')

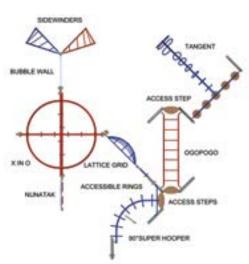

Freestanding Igloo not included.

## **EJ Sands Elementary**

This free-flowing structure features challenging climbing and upper body activities along with balancing and sliding fun.

## **BX Elementary**

Upper elementary students helped choose the exciting climbers and challenging overheads on this free-flowing deckless design.

C15-05

Recommended Ages: 5 – 12

Format Shown: uPlay

Area Required: 12.3m x 12.1m (41' x 40')

### **Southland Park**

Adventure seekers will find big fun as they clamber around the Beehive net and cross over the net bridge before flying down the Deep Dip Slide.

C17-13

Recommended Ages: 5 – 12 Format Shown: MegaPlay

Area Required: 10.4m x 17.1m (34' x 56')

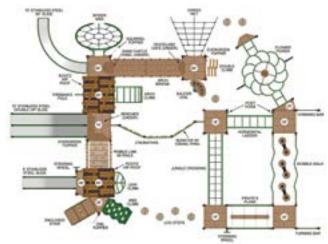

## **Kingsland**

Kids can muscle their way around the agility circuit, then up and along diverse climbers before zooming down one of the slides on this action-packed community park structure. Log steps and wood-look slats create a woodsy feel.

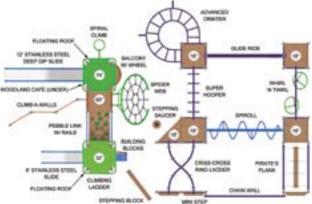

C17-14

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 16.6m x 13.1m (55' x 43')

#### **Meadowview Park**

From the little slide to the thrilling Deep Dip, from the Building Block climber to the challenging overhead circuit, this versatile design provides fun for all ages. Floating Roofs add a contemporary touch.

•••••

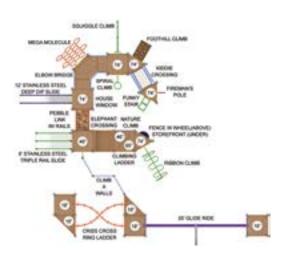

C16-11

Recommended Ages: 5 – 12 Format Shown: ImpPlay

Area Required: 15.5m x 11.7m (51' x 39')

## **Katzie Elementary**

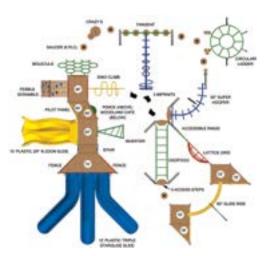

Our Criss-Cross Ring Ladder and extra-long Glide Ride supply exciting upper body play while diverse climbers and slides round out this action-packed school playground.

C16-15

Recommended Ages: 5 – 12 Format Shown: MegaPlay

Recommended Ages: 2 – 5

Area Required: 3.0m x 1.5m (10' x 5')

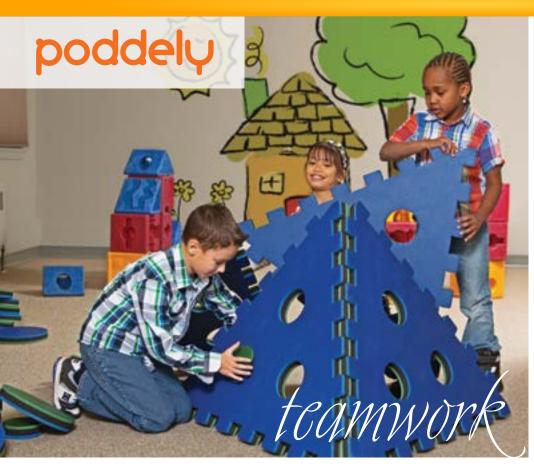

#### **Wacky Shack**

Compact and whimsical, this structure invites social and sensory play.

C14-28

Recommended Ages: 2 – 5

Area Required: 1.8m x 1.4m (6' x 5')

Highly versatile loose-piece system for ages 2-12. Fully portable. No installation required.

Poddely is a versatile and exciting tool to support learning through to kindergarten.

Our students use their imagination to build forts, learn about science by constructing ramps and practice gross motor skills by using the large blocks as stepping stones.

I highly recommend Poddely for your centre or school.

- Stephanie Winter, Kinder Kids International Preschool

# STAINLESS STEEL SLIDES

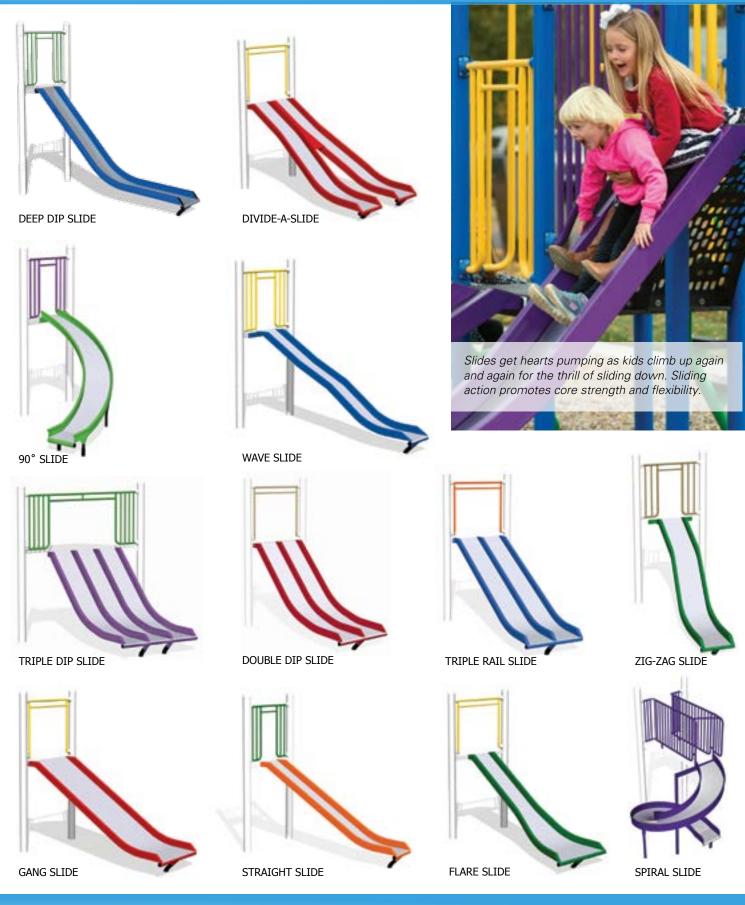

Supremely fast, supremely fun, supremely durable

#### Why Choose Stainless Steel?

Some municipalities and school districts require steel slides on all playground structures. Here's why:

- Highly durable: supported by Blue Imp's 20-year warranty
- ✓ Vandal-resistant: not flammable, less prone to graffiti
- Cochlear-implant-friendly: free from damaging static electricity
- Eco-friendly: made from the world's most recycled material, 100% recyclable
- \* Fast and fun!

# **BLUE IMP BORDER TIMBERS**

An easy-to-install alternative to treated wood timbers.

- Cost-effective
- Weather-resistant
- Maintenance-free
- Recycled material
- · Strong, smooth, roto-molded design

**BORDER TIMBER ADAPTORS** BP-09

- 1800mm (72") x 300mm (12") x 150mm (6")
- Includes two 20mm (3/4") x 760mm (30") galvanized stakes

# SAFETY SURFACING

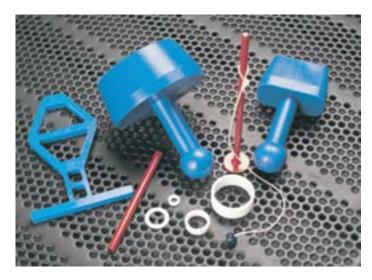

All playgrounds must be installed over resilient surfacing. Over 70% of injuries which require hospital treatment are caused by falls onto a hard surface. Cushioned surfaces help protect children from serious injury.

To be effective, the surfacing must cover the complete protective surfacing zone for each playground structure. The depth required will depend of the type of surfacing and the fall height of the equipment.

Many different types of safety base are available including loose fill materials such as pea gravel and sand, engineered wood fibre or unitary surfacing such as rubber tiles and pour-in-place rubber surfacing. Availability of material, weather conditions, wheelchair accessibility and cost are all factors in deciding which surface type best meets your needs.

Please contact your Blue Imp representative to discuss options and requirements.

# **SAFETY & MAINTENANCE SUPPLIES**

# Safety Inspection Kit SP-21

Includes torso, head, finger probes, protrusion gauges, toggle with cord, and a handy carrying case.

# Graffiti Remover

Remove graffiti easily with GAT, a blend of powerful, biodegradable cleaning solvents. This industrial strength product is the fastest way to remove graffiti without the need for environmentally troublesome solvents.

#### Maintenance Kit

To keep your Blue Imp play structure in tip top condition you will receive a 'care package' including hardware and specialty tools.

# **SAFETY STANDARDS**

Blue Imp is proactive in ensuring that our designs and structures meet or exceed industry standards.

To verify product certification, Visit www.ipema.org

# IPEMA CERTIFICATION

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, TÜV Süd

America (TÜV), validates an equipment manufacturer's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1,10 and 12.6.1; to CAN/CSA Z614, Children's Playspaces and Equipment, except clauses 9.8, 10 & 11; or both.

The use of the corresponding logo in this catalogue certifies that Blue Imp has received written validation from the independent laboratory that the product(s) associated with the use of the logo conforms to the requirements of the indicated standard. Check the IPEMA website (www.ipema.org) to confirm product validation.

# ISO 9001:2008 CERTIFIED

Blue Imp is proud to be ISO 9001:2008 certified. ISO 9001:2008 is an internationally recognized quality management system standard which Is used to audit Blue Imp's process for continual improvement.

# **IPEMA MEMBER**

Blue Imp Recreational Products Ltd. is a member in good standing of IPEMA, the International Play Equipment Manufacturers Association. IPEMA is a member-driven international trade organization which represents and promotes an open market for manufacturers of play equipment.

# **CSA**

Blue Imp products meet or exceed the standards set by the Canadian Standard Association. CSA is an independent organization whose mission is to develop standards that enhance public safety. For more information, refer to www.csa.ca.

# **ASTM INTERNATIONAL**

Blue Imp products meet or exceed the standards set by ASTM International, an independent world renowned developer of technical standards utilized in testing products. For more information, refer to www.astm.org.

# **CPSC**

The Handbook for Public Playground Safety, published by the Consumer Product Safety Commission, describes playground safety guidelines to help communities, schools, day care centres, corporations and other groups build safe playgrounds.

# BLUE IMP CARES ABOUT GREEN

Do children care about the environment? You bet. And so does Blue Imp.

Blue Imp has implemented lean manufacturing initiatives to increase efficiency and reduce waste. From improving energy efficiency to ensuring all waste metal is collected for recycling, lean manufacturing helps minimize our impact on the environment.

Blue Imp strives to choose materials that are positive for the environment and safe for children. We promote the use of steel in playground design in part because it is more durable, easier to recycle and more eco-friendly.

Steel's long lifespan combined with high recycled content and recyclability makes it more sustainable than other materials.

# **BLUE IMP MATERIAL SPECIFICATIONS**

Blue Imp equipment is built to last using superior materials and craftsmanship. All products meet or exceed the current CAN/CSA Z614, ASTM F1487 and CPSC standards.

Posts: in-line galvanized steel with triple layer protection for maximum strength and corrosion resistance; lifetime warranty.

Hardware: tamper-resistant stainless steel for durability and safety; lifetime warranty.

Components & Rails: in-line galvanized steel tubing with UV-resistant polyester powder coating.

Finish: high performance, solvent-free polyester powder coating for UV and humidity resistance as well as maximum colour and gloss retention in weather extremes.

Platforms, Stairs & Stepping Saucers: one-piece perforated steel plate with a heavy-duty vinyl coating for durability and

resilience; 8mm (5/16") perforations to minimize moisture and ice retention.

Stainless Steel Slides: bedway constructed of 1.65mm (16ga) stainless steel. Durable, vandal-resistant, static-free and 100% recyclable.

Plastic Slides: molded from medium density, UV-inhibited, food-grade polyethylene resin. Double-walled with an average wall thickness of 8mm (5/16") for strength and safety.

Plastic Panels: 19mm (3/4") thick, high-density, UV-stabilized, food-grade extruded polyethylene sheet.

# **PLAYGROUND FORMATS**

- Heavy-duty round steel support posts, 127mm (5") O.D.
- Clampless, tamper-resistant connection system with pre-drilled mounting holes for easy install
- Well-suited for high-use applications

- Robust round steel support posts, 89mm (3.5") O.D.
- Clampless, tamper-resistant connection system with optional pre-drilled mounting holes for easy install

- Robust curved steel support posts, 89mm (3.5") O.D.
- Clampless, tamper-resistant connection system
- Contemporary deckless designs ideal for older children

# TERMS OF SALE

Prices: All prices are F.O.B. Medicine Hat, AB, Canada and do not include shipping, delivery or applicable taxes. Prices are subject to change without notice.

Specifications: Blue Imp continually improves products to enhance quality and therefore reserves the right to change design specifications without notice.

Installation: All products are delivered unassembled. Please contact Blue Imp for a certified installer in your area.

Delivery: Most products are delivered in crates and large pallets and will require a forklift or appropriate equipment to unload. A bill of lading is our receipt from a carrier that our shipment to you was complete and in good condition upon leaving our factory. On the shipment's arrival please check the equipment closely to make sure there are no damages or shortages before signing the bill of lading. Notify the carrier at once and sign delivery documents noting the damage or shortage if any. Failure to note damage or shortages may impair your right to recovery from the carrier.

# SIMPLY THE BEST WARRANTY IN THE INDUSTRY.

It is with confidence and family pride that we continue to back our products with the best warranty in the industry. Blue Imp has been building playgrounds for four generations and we strive to build high quality playgrounds that will last for generations to come.

# LIFETIME WARRANTY

On all stainless steel hardware and steel support posts against structural failure due to corrosion or deterioration.

# 20-YEAR WARRANTY

On all stainless steel components against structural failure due to defective materials or workmanship.

# 15-YEAR WARRANTY

On all steel and aluminum components against structural failure due to defective materials or workmanship.

# 10-YEAR WARRANTY

On plastic and vinyl-coated components against structural failure due to defective materials or workmanship. On cable/rope components against breakage. On GFRC (glass fibre reinforced concrete) products against structural failure due to defective materials or workmanship (does not include hairline cracks or colour variations).

# **5-YEAR WARRANTY**

On bearings against defective materials or workmanship.

# 2-YEAR WARRANTY

On all acrylic products and Music Outdoors products against defective materials or workmanship.

# PODDELY WARRANTY

Poddely sets (p. 76) are warrantied for 24 months from date of delivery providing the equipment is maintained in accordance with Poddely guidelines.

# **LET US LEND A HAND**

Building a playground is no small feat and we are here to help. From fundraising ideas and project planning through to installation and beyond, we strive to provide hands-on support every step of the way to ensure your satisfaction.

Fundraising? We can help! For details, contact your nearest Blue Imp representative.
