

BLUE IMP WARRANTY

It is with confidence and family pride that we continue to back our products with the best warranty in the industry. Blue Imp has been building playgrounds for four generations and we strive to build high quality playgrounds that will last for generations to come.

Warranty is valid provided that equipment is installed in accordance with manufacturer's specifications as well as any applicable standards and is being used as intended. Warranty does not cover vandalism or misuse.

LIFETIME WARRANTY

On all stainless steel hardware and steel support posts against structural failure due to corrosion or deterioration.

20-YEAR WARRANTY

On all stainless steel components against structural failure due to defective materials or workmanship.

15-YEAR WARRANTY

On all steel and aluminum components against structural failure due to defective materials or workmanship.

10-YEAR WARRANTY

On plastic and vinyl-coated components against structural failure due to defective materials or workmanship. On cable/rope components against breakage. On GFRC (glass fibre reinforced concrete) products against structural failure due to defective materials or workmanship (does not include hairline cracks, chips or colour variations).

5-YEAR WARRANTY

On composite recycled plastic/wood against defective materials other than normal wear and tear. On bearings against defective materials and workmanship.

2-YEAR WARRANTY

On all acrylic products and Music Outdoors products against defective materials or workmanship.

GO GREEN WITH BLUE IMP

Do children care about the environment? You bet. And so does Blue Imp.

Blue Imp has implemented lean manufacturing initiatives to increase efficiency and reduce waste. From improving energy efficiency to ensuring all waste metal is collected for recycling, lean manufacturing helps minimize our impact on the environment.

Blue Imp strives to choose materials that are positive for the environment and safe for children. We promote the use of steel in playground design in part because it is more durable, easier to recycle and more eco-friendly.

Steel's long lifespan combined with high recycled content and recyclability makes it more sustainable than other materials.
